Questions to Ask Travel Agents

- What type of travel does the agent consider his or her specialty? (Make sure it's leisure, not business.) Any special focus in locales?
- Does the agent plan many honeymoons?
- Can he or she give you references—couples you can speak to whose honeymoons the agent planned?
- What are the agent's ideas, based on your constraints and interests?
- Has the agent personally been to the destinations or resorts he or she recommends? Are there brochures you can look at?
- Will the agent deliver all the items you need to travel (tickets, confirmations, maps), or do you need to come back in?
- If you need other documents (such as passports or visas for travel abroad), can the agent help arrange them?
- Is there a twenty-four-hour toll-free number in case of travel emergency?
