

## Bridesmaids' Alterations & Accessories Checklist

- Based on when the dresses are expected to come in, have all local bridesmaids schedule a fitting.
- About a month after ordering, call the shop to reconfirm delivery date.
- When the dresses arrive, you or the maid of honor should go see them to make sure they are the style(s) you ordered and that nothing is damaged.
- Have maid of honor pick up out-of-towners' gowns (she'll likely have to pay the balance; ask the other attendants to reimburse her, or you) and ship them to each maid. They should have fittings done at a tailor's or dress shop near them.
- Shop for and choose a shoe style. Let your bridesmaids know where to get them, or purchase them yourself and send them out. (Or just give them guidelines and let them choose their own shoes.)
- Touch base with all maids to be sure they pick up their fitted gowns and pay the balance.
